

## SPECIFICATIONS

**Product Name** : Sodium Erythorbate  
**Chemical Name** : Sodium Erythorbate  
**Standards and Criteria** : Food Chemicals Codex VI

Description : A white, crystalline powder or granules.  
The pH of a 1:20 aqueous solution is between 5.5 and 8.0.

Identification : To pass test

Lead : NMT 5 mg/kg

Loss on Drying : NMT 0.25%

Optical (Specific) Rotation  $[\alpha]_D^{25}$  : + 95.5 - + 98.0 °

Oxalate : To pass test

Assay : NLT 98.0% and NMT 100.5% of  $C_6H_7NaO_6 \cdot H_2O$
